Images Description

Thumbnail width

Thumbnail height

For every gallery you must indicate :

- The folder path
- The Name for the Gallery
- Release info that will appear under each image
- The image description that will appear when you press the corresponding button above the image
- The dimension for the thumbnails

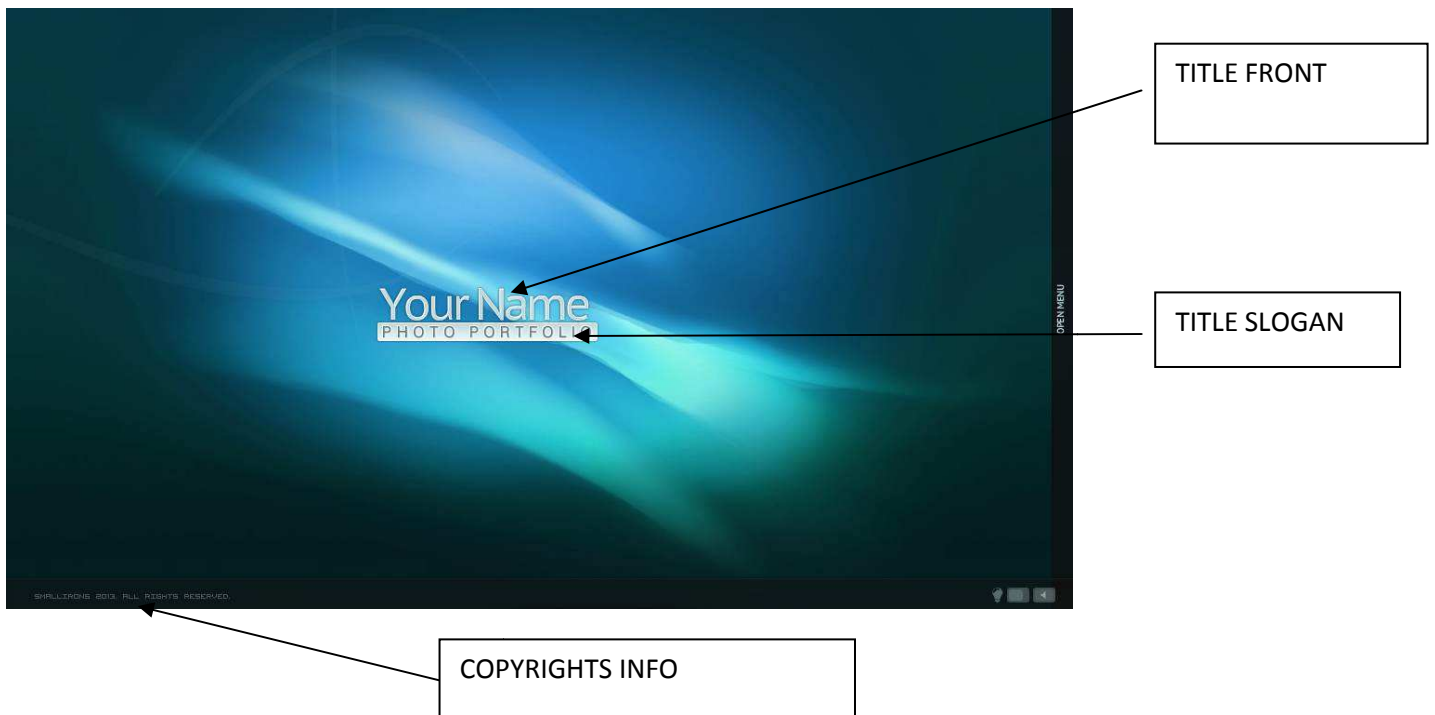

You can indicate the following navigation options :

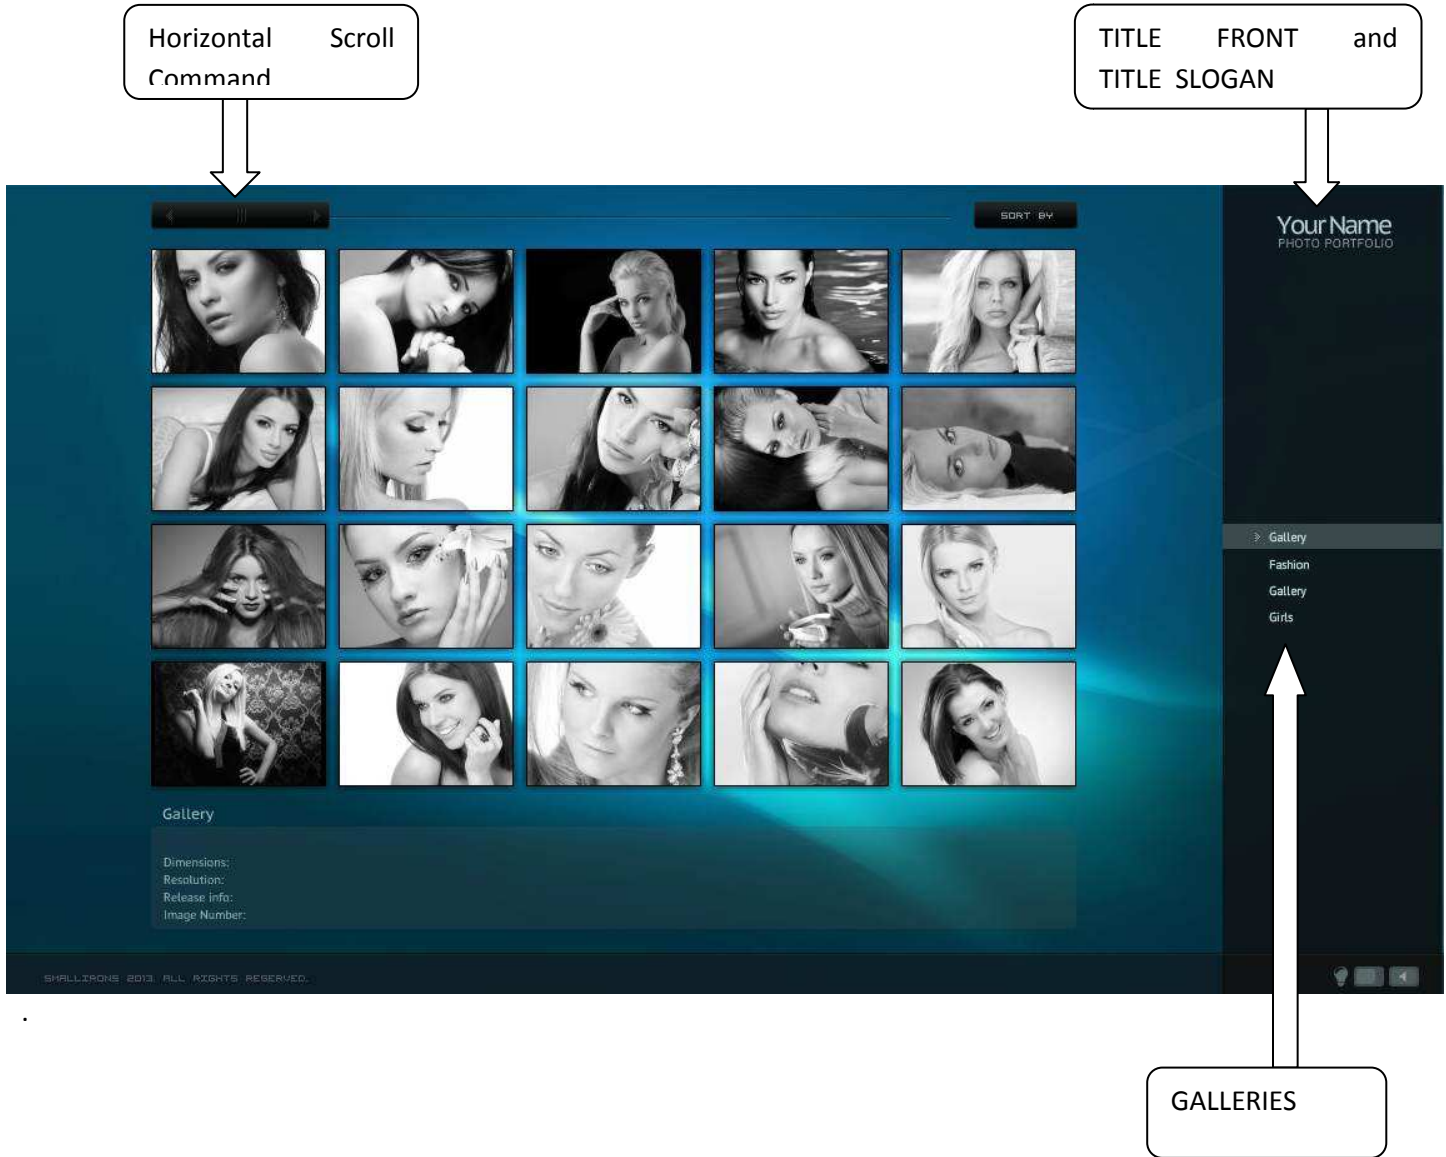

Gallery Options

Title front	<input type="text" value="Your Name"/>
Title slogan	<input type="text" value="PHOTO PORTFOLIO"/>
Copyrights info	<input type="text" value="SMALLIRONNS 2013. ALL RIGHTS RESERVED."/>
Select a background file	<input type="text" value="bg1.swf"/>
Select a song	<input type="text" value="001.MP3"/>

- The Title front description
- The Title slogan description
- The Copyrights info
- The background file
- The module allow you to use one song (which must be in mp3 format). Initially shows the only song contained in the folder mod_smablufolio/music. If you want to implement a choice you have to add in that folder the songs that you desire.

In the following figures will be explained where the parameters you have inserted will be appear.

Click on TITLE FRONT to GOBACK

Click on thumbnail to visualize.

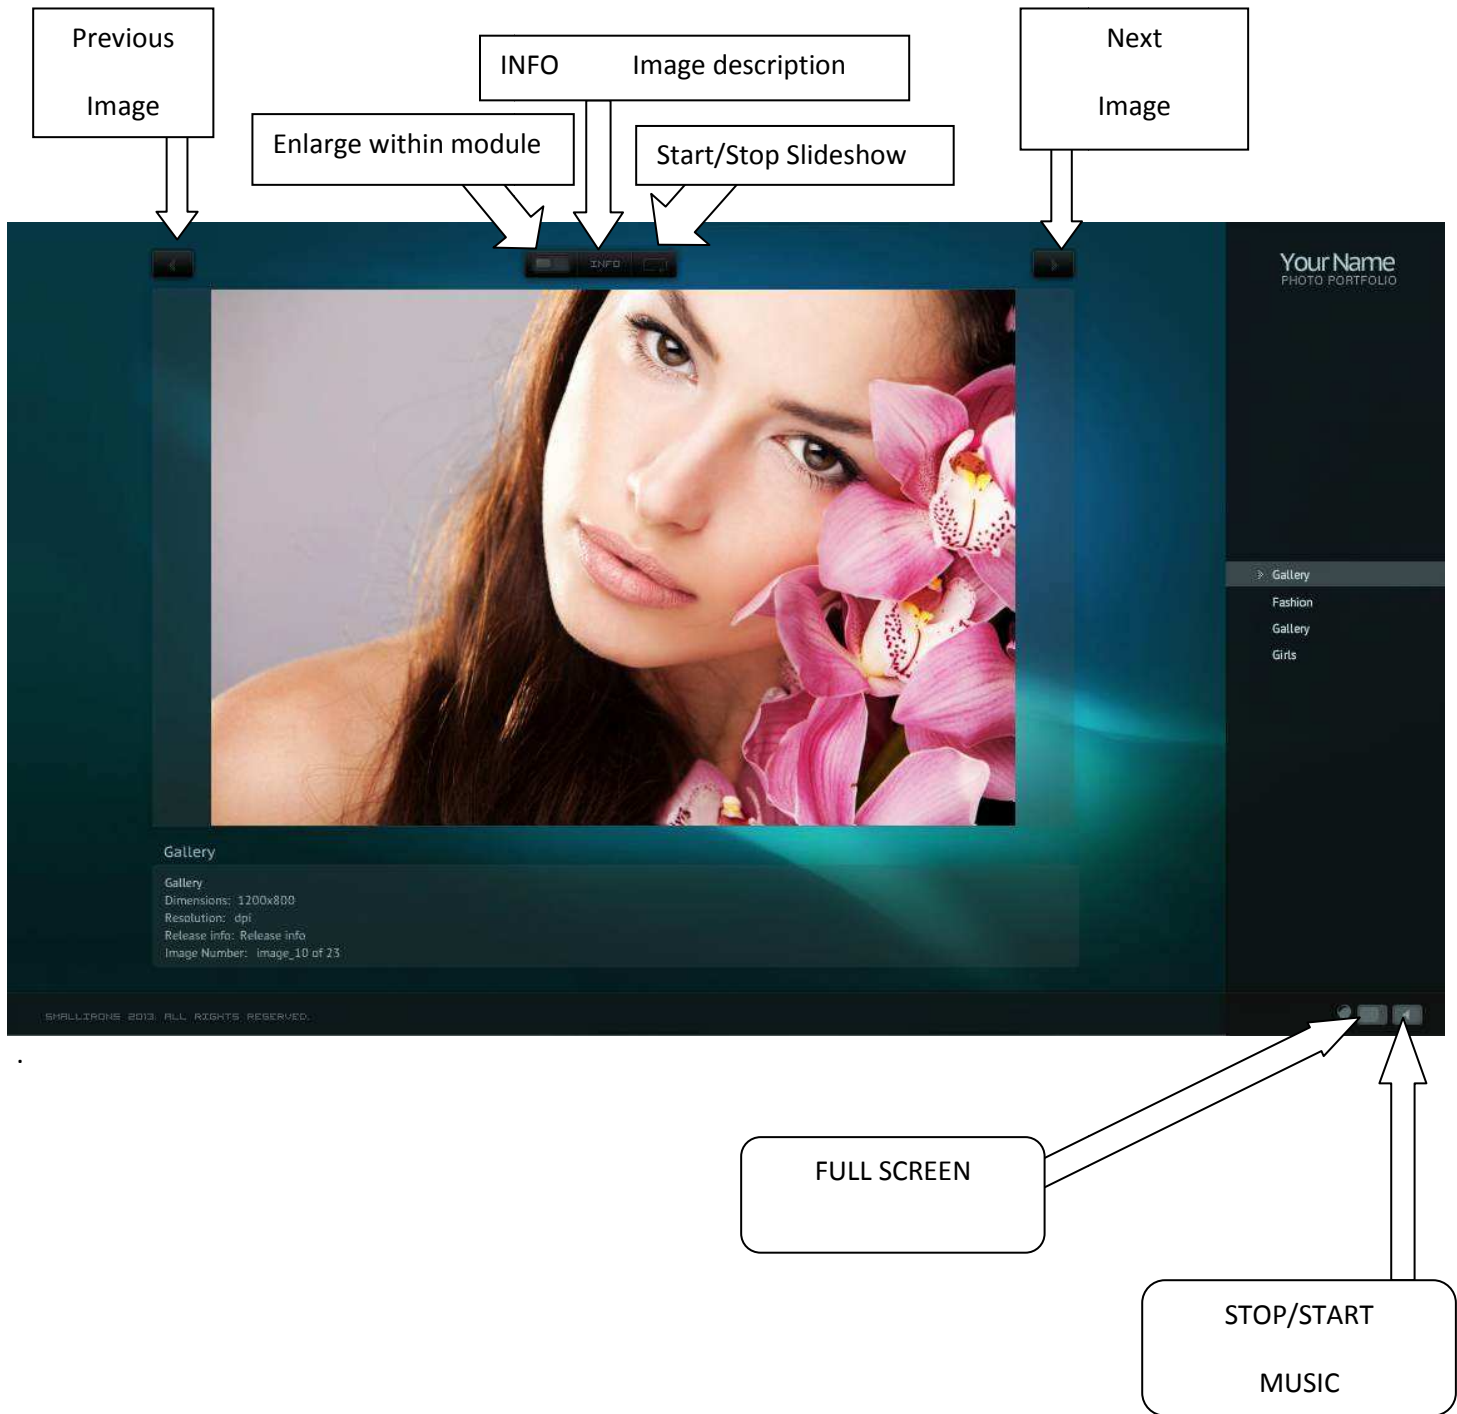

Image enlarged within module, click on it to close.
